

# Roman Industries Co. Ltd.

Yokohama Plant

Roman Industries Co. Ltd. is a manufacturer in the industrial biochemistry field, has been maintaining its venture mind since its establishment in 1964. Our main factory, Yokohama Plant (11,300 m<sup>2</sup>), is located on Kanazawa Industrial Estate in the south of Yokohama City. We have been accumulating expertise and experiences as a manufacturer of biochemical materials for industrial use, particularly for pharmaceutical drugs, cosmetics and nutritional food supplements. These materials are manufactured from animal tissues or plants, based on the technology of extraction and purification. Also we produce some final products of pharmaceutical drugs. Any inquiries are welcome, especially for small scale production of animal or plant origin materials, and we will respond quickly.
